Review 5.6.0

*MRS Single Sign On
(SSO)*

Solution Requirement

Design Review

- The current production Wide Area Workflow e-Business Suite Management Reporting System (MRS) is hosted at the Army ITA in the Pentagon. The production site host location is moving to DISA DECC at Ogden, Utah.
- With this location change the ability for users to login through the existing mechanism (an AKO account) will not be supported. The requirement is to replace the AKO account login with a Wide Area Workflow e-Business Suite account login, (a.k.a. MRS SSO).
- The purpose of this presentation is to guide you through the MRS registration process (established with DR_996) and the new sign on process for Wide Area Workflow e-Business Suite Government Users and Government

Successful Registration

Successful Registration page is displayed after user completes all the registration steps.

You have successfully registered for the following applications. You will receive an e-mail containing your User ID.

- MRS - Business Intelligence Tool

The approval request will go to your Supervisor/Sponsor.

Once you have been approved by your Supervisor/Sponsor, the approval request will go to an administrator.

Once you have been activated by an administrator, you will receive another email notifying you of the role(s) for which you have been activated.

You may log into Wide Area Workflow e-Business Suite to check the status of your request or make changes to your profile information.

If you have any questions, please contact the Customer Support.

John Doe has requested access to the following applications :

***** MRS - Business Intelligence Tool *****
- Business Intelligence Access

Your approval as the supervisor/sponsor is required.
You have 72 hours, at that point the link below will expire. If we get no response a follow up email will be sent to you with a new link.
If you do not respond to either this email or the follow up email, mrsf2 mrs12's request for access will be rejected.

Please use the link below and follow the steps provided to approve or deny the request.
<https://fiona.caci-op.com/portal/applicationApproval?email=superdup76%40gmail.com&token=09a2c91fe4b2283f2f47a4aad719c9485ad2302f05793c519098b5ae6986afa>

THIS IS A SYSTEM GENERATED EMAIL MESSAGE, PLEASE DO NOT RESPOND TO THIS EMAIL.

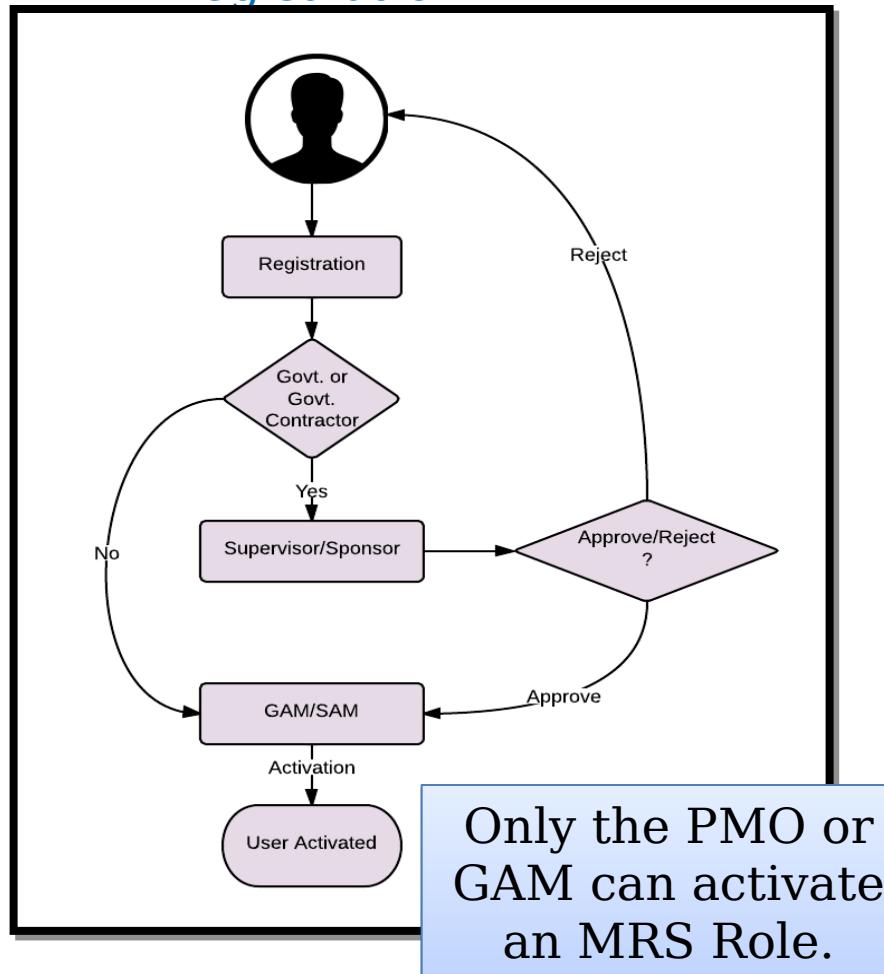

An email is sent to your supervisor/sponsor.

Design Review

Government User and Government Support Contractor Registration

1. Upon registration, an email with a one time token will be generated and sent to the supervisor/sponsor email address entered during the registration process. (User must enter valid email address of their supervisor/sponsor during registration)
2. If the supervisor/sponsor doesn't respond within 72 hours, Wide Area Workflow e-Business will resend the email with a new token.
3. If the supervisor/sponsor doesn't respond within 30 days, the system will set the status of the user's role to 'Rejected'.
4. The PMO/GAM will activate the MRS role that has been approved. If the role was rejected, the PMO/GAM will not be able to activate the rejected role.

[Wide Area Workflow e-Business] Web

Design Review

WAWF PMO -Activation of MRS role

If access is to be granted, the PMO will “activate” the user using two steps.

1. The first step is giving the user access through the Wide Area Workflow e-Business Suite. By doing this, the government user or government support contractor will then be able to access the BI tool through the “MRS” icon, which will now be available to them when they login to the system.
2. The second step the PMO must take is to activate the user within the SharePoint BI tool. Within the tool, the PMO will add the user account and determine which group to assign the user to. Groups are determined by the PMO. The user will then be able to view the reports that are assigned to the group in SharePoint (if applicable) or the reports they are directly assigned to view (most reports currently fit this model).
